Innovative Construction Chemicals

# SMART SOLUTIONS FOR ARCHITECTURAL STRUCTURE

Water Repellent is the construction chemical arm of Trinity Rubber which is a Five decade old industrial rubber manufacturing company. Under the venture of Water Repellent, this valor institution provides waterproofing and stain resistance chemicals for construction Industries. Considering the current climatic conditions we provide ergonomic and long-lasting products that can resist the ingress of water and also keep the structural integrity intact.

Each of our offerings is tested by our quality control department so you can be sure of the reliability of the products. In fact, we only provide those products that are able to match the standard transmission rate.

# SMART & INNOVATIVE SOLUTIONS TO IMPROVE PERFORMANCE OF ARCHITECTURAL & DECORATIVE STRUCTURE

Speciality Chemicals Product Range

## ADVANTAGES OF OUR PRODUCTS

SAVES CLEANING AND RESTORATION COST

PROVIDE A BARRIER TO MOST SPILLS AND CONTAMINANTS

PRODUCTS ARE BREATHABLE IN NATURE.

ALL PRODUCTS ARE UV RESISTANT

LONG TERM EFFECT WITH HIGH RESIDENCE TIME

GOOD PROTECTION FROM FUNGUS AND ALGAE

DEEP PENETRATION GIVES BETTER LIFE EXPECTANCY

IMPROVES THE LIFESPAN OF STRUCTURE

TREATED CONCRETE OFFERS GOOD PAINT ADHESION

FACTORY MIX PRODUCT, HENCE CONSISTENT AND NO CHANCE OF ERROR

CAN BE MAINTAINED BY CLEANING STAFF

SUFFICIENT WATER VAPOR PERMEABILITY

NO CORROSION – THE REINFORCING STEEL DOES NOT RUST, AS NO MOISTURE REACHES IT

NO FROST DAMAGE – GREATER RESISTANCE TO FREEZE/THAW CYCLES

# SPECIALITY CHEMICALS PRODUCT RANGE

## Water Repellent Chemicals (Water Repellent)

Name	Application	Characteristics	Effects	Carrier
TR-WR-813	Clay Brick, Tiles, Roof Tiles, Natural Stone	Clear, colorless to slightly yellowish liquid	Gives Water Repellency to All Mineral Substrates	Water
TR WR S-500	Cement & Fiber Board, Natural Stone, Tiles, Clay Roof Tiles & Bricks	Milky White, Liquid	Gives Water Repellency to All Mineral Substrates	Water
TR-SSB-19	Clay Brick, Tiles, Roof Tiles, Natural Stone	Slightly Yellowish, Liquid	Gives Water Repellency to All Mineral Substrates with least porosity.	Solvent

## Stone Sealers (Oil & Water Repellent)

Name	Application	Characteristics	Effects	Carrier
Stone Sealer 11	All Natural And Artificial Stone	Clear, Liquid	Color Darkening with Water And Oil Repellency	Solvent
Stone Sealer 15	All Natural And Artificial Stone	Clear, Liquid	Mild Color Change with Water and Oil Repellency	Solvent
Stone Sealer 19	All Natural And Artificial Stone	Clear, Liquid	Water and Oil Repellency	Solvent
Stone Sealer 112	All Natural And Artificial Stone	Clear, Liquid	Water and Oil Repellency with no color change	Solvent
Stone Sealer 15 (W)	All Natural And Artificial Stone	Milky White, Liquid	Mild Color change with Water and Oil Repellency	Water

## Coating Chemicals (Stain Resistance Coatings)

Name	Application	Characteristics	Effects	Carrier
Anti Graffiti	All Natural Stone Artificial Stone, Wood, Metal Surface, Concrete Wall, Painted Wall, Etc	Clear, Liquid	Protects Surface from any Graffiti and Stains and gives color darkening effect	Solvent
Super Gloss	All Natural unpolished stone	Milky White, Liquid	Gives Gloss and color deepning effect	Water
Floor P Tech	Cementitious Floors, stones	Clear, Liquid	Anti-Staining, chemical resistance, glossy effect, impact resistance	Solvent
Color Enhancer	All Natural And Artificial Stone	Clear, Liquid	Wet look, water, oil and dirt repellent	Solvent

## Our Speciality Products

Name	Application	Characteristics	Effects	Carrier
Stone Consolidator	Natural porous or soft stones	Clear, Liquid	Stone Hardening and consolidating	Solvent
Fab Repell	Fabrics and Leathers	Milky White, Liquid	Water And Oil Repellent	Water
Wood-Coat E15	Any type of raw wood	Off-White, Liquid	Water repellent	Water

## Water Proofing Chemicals

Name	Application	Characteristics	Effects	Carrier
LiqSeal	Water Proofing Compound For Interior And Exterior Constructions	Cementitious compound in powder form	Elastic Crack bridging, water-vapor permeable, Improves Paint Coverage Area, Water Pressure Resistance up to 7 Bar	Water
Aqua LiqSeal	Water Proofing Compound For Exterior Constructions	White Liquid	Elastic Crack bridging, water-vapor permeable, Improves Paint Coverage Area, Water Pressure Resistance up to 7 Bar	Water
